

COLOR PAIRING WITH *TRANSITIONS*®

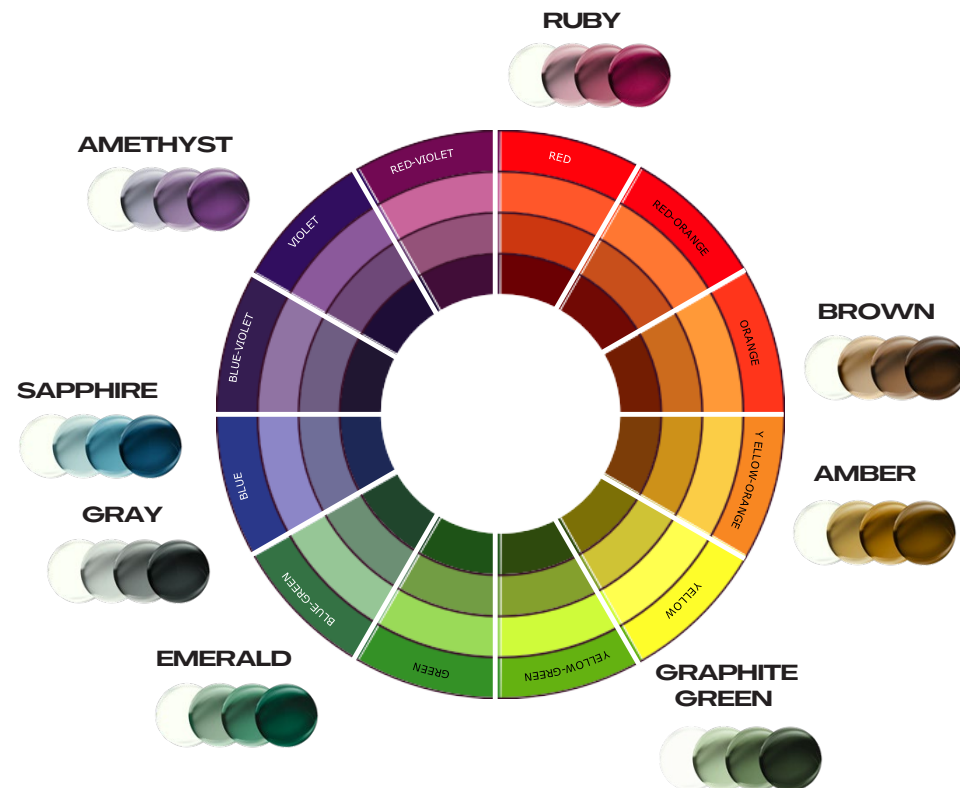

Transitions' vibrant lens colors can enhance your style offering.

When paired thoughtfully, frame and lens colors work together to create a complete style statement, whether it is discreet, moderate, or bold.

The color wheel is a circle of 12 shades—including primary and complementary tones—that shows how colors relate to one another. Think of it as your personal guide to color matching, making it easy to mix, match, and create harmonious, beautiful frame and lens combinations.

Use the color wheel to create combinations with different visual effects:

- 01 | Similar colors create harmony
- 02 | Matching colors create unity
- 03 | Opposite colors create contrast

PAIRING LOOKS

01

TONE-ON-TONE
